Hartsel Community Center	Thurs., April 21, 6:00 PM

Six Convenient Workshops to Reach All Communities

The county will host a series of workshops to affirm community values and gather community feedback on the draft master plan. The county has hired RPI Consulting of Durango to facilitate this important process. These events will include a presentation on draft strategies and goals, group discussion and a “red dot, green dot” exercise in which each participant evaluates their favorite and least favorite parts of the draft plan. Plan elements for review will include:

- Ag and water conservation
- Development patterns
- Expanding and evolving tourism
- Diversifying the economy
- Core services and infrastructure
- Governance and communications
- Future land use plan designations
- Growth strategies and sub area plans
